

Dear friend,

in case you or your friends are looking for best ways to donate for Ukraine, please, feel free to get in touch with Maryana Golovchenko - maryanka.ne@gmail.com.

Red Cross (Giro555 is working with them) is really not doing much of good things while small local organizations need every penny...scroll down to see the alternative options.

Please, help spread the word.

LEGITIMIZING RUSSIAN OCCUPATION

- On March 16, **The International Committee of the Red Cross** mission announced that it **had left Mariupol**, which is now facing an unprecedented humanitarian catastrophe.
- The occupiers have already deported **about 15,000 Mariupol residents** to far-east regions of Russia **as workforce** after placing them in so-called **filtration camps** to check their documents and phones.
- On March 24, ICRC head Peter Maurer met Russia's Foreign Minister Sergei Lavrov, **thanked Russia for "positive cooperation"** in various parts of the world, and asked for permission to open an office in Rostov-on-Don, a city bordering Ukraine.
- This means de-facto **legitimization of Russia's forceful deportation and making money off blood**. Donation to the Red Cross means indirect support of Russian aggression in Ukraine.

My childhood friend **Anna Danylenko** is the leader of this movement. Person, who I dearly love and trust. Throughout years she has proven herself as a dedicated, responsible and compassionate leader. She organized a number of big events, among others – an annual Bike day – an event that attracts over 15000 cyclists from around Ukraine. She has always been the soul of our company of friends – inspiring, optimistic and full of energy.

3. Illuminate Foundation

<https://www.patreon.com/illuminatefund>

In the dark times, we united our efforts to help Ukrainian children and their families to revitalize their lives.

Please have a look at us [here](#). The services we aim to provide:

- **Psychological support for children and their families** who are internally displaced or were forced to flee the country and don't have access to professional psychological support.
- **Direct financial support** for families and children in crisis.
- **Legal and Integration Consultations** for families abroad willing to adopt or provide foster care for Ukrainian kids settling into a new country: the application process for kindergartens, schools, introduction to the healthcare system, etc. Elimination of the language gap & establishing a connection between families with kids and organizations working on the ground.
- **Further steps:** development of learning materials and setting up centers for kids and families on how to rebuild their physical, emotional, intellectual, relational, spiritual well-being.

4. Kolo ua – critical support for Ukrainian Defenders

<https://koloua.com/en>

We quickly supply the essential equipment to our soldiers in hot spots. Our main focus is medium-sized orders that often go overlooked by large foundations. Individual volunteers can't afford them, so KOLO is here to fill the void.

- **Helmets and body armor**
- **Satellite phones and tactical radio equipment**
- **Quadcopters and drones**
- **Thermal imagers and sights**

5. Ukrainian Classical Musicians Support Fund

<https://en.kcmd.eu/support>

Provides help to Ukrainian classical musicians (composers, performers, musicologists). The organisation has identified four groups of musicians in the order of priority as follows:

- Elderly musicians and musicians with disabilities who are in Ukraine.
- Musicians who are in Ukraine and not employed.
- Musicians who are in Ukraine and employed.
- Musicians who were forced to leave Ukraine due to the war.

1. Ensuring a basic standard of living and security: food, medicine, housing, etc.

We accept requests, as well as proactively learn about such needs from those who do not have access to the Internet, and provide assistance. We also purchase what is needed and find a way to deliver the purchases, or look for an opportunity among volunteers to get and deliver what is needed.

2. Meeting the musicians' needs to keep their practice going: ie. maintaining instruments in a proper condition, buying an inexpensive instrument in case of loss, and other urgent professional needs.

We accept inquiries about such needs, consider them, and look for opportunities to purchase what is needed and provide it to musicians.

3. Providing one-time financial assistance for civil needs in the amount of UAH 3,400.

UAH 3,400 is the maximum amount that, according to Ukrainian law, a public organization has the right to send once a year to the bank account of an individual without the need to draw up contracts or any other legal red tape. This amount becomes a charitable donation to an individual; it can be used for any civilian needs.

Receiving help in the form of 3,400 hryvnias does not deprive musicians of the opportunity to turn to us for other kinds of help.
